Dear friends and customers,

I am pleased to present my new catalogue. Most of my book stock was gathered in the last 20 years and contains many rare and seldom offered items. I hope you will find something of interest in this catalogue, otherwise I am in the position to search any book you find difficult to obtain. Please send me your want list. I am always interested in buying books, journals or even whole libraries on all fields of science (zoology, botany, geology, medicine, archaeology, physics etc.). Please offer me your duplicates.

Terms of sale and delivery:

We accept orders by mail, telephone or e-mail. All items are offered subject to prior sale. Please do not forget to mention the unique item number when ordering books. Prices are in Euro. Postage, handling and bank costs are charged extra. Books are sent by registered surface mail (unless we are instructed otherwise) upon receipt of payment. Confirmed orders are reserved for 30 days. If payment is not received within that period, we are in liberty to sell those items to other customers. Return policy: Books may be returned within 14 days, provided we are notified in advance and that the books are well packed and still in good condition.

Entomology (General)

EG27035 **BOUCHÉ, P.F., 1834.** € 90,00

Naturgeschichte der Insekten, besonders in Hinsicht ihrer ersten Zustände als Larven und Puppen. Lieferung 1 (all published); v, 216 p., 10 engraved plates, later full cloth with gilt title on spine.

A rare work with descriptions of many new species. It is unknown why no more was published. The botanist and entomologist Peter Friedrich Bouché (1785-1856) was a garden director in Berlin and published mainly on Diptera but is perhaps best known for his "Naturgeschichte der schädlichen und nützlichen Garten-Insekten und die bewährtesten Mittel zur Vertilgung der ersteren" (1833). Inscribed by Westwood on the title page. Some marginal annotations (by John Westwood?) and light pencil notes on the plates, otherwise a good copy. Hagen I, p. 77; Horn-Schenkling, 2093.

Momumental work which covers all living and extinct primates known at the time in full detail. It is the culmination of 50 years of scientific research and thought. Each volume covered its subjects exhaustively, including native and scientific nomenclature, anatomical structure, genetics, behaviour and palaeontology. The books are illustrated with photographs and drawings, most of which were made by Osman Hill's wife, Yvonne. A 9th volume was planned, but Osmann Hill died in 1975 and it was never completed.
