Dear friends and customers,

I am pleased to present my new catalogue. Most of my book stock was gathered in the last 20 years and contains many rare and seldom offered items. I hope you will find something of interest in this catalogue, otherwise I am in the position to search any book you find difficult to obtain. Please send me your want list. I am always interested in buying books, journals or even whole libraries on all fields of science (zoology, botany, geology, medicine, archaeology, physics etc.). Please offer me your duplicates.

Terms of sale and delivery:

We accept orders by mail, telephone, fax or e-mail. All items are offered subject to prior sale. Please do not forget to mention the unique item number when ordering books. Prices are in Euro. Postage, handling and bank costs are charged extra. We are required to charge our EU customers 6% VAT (TVA, BTW) unless they possess a VAT registration number and live outside of the Netherlands (please quote your VAT number when placing orders!). Books are sent by registered surface mail (unless we are instructed otherwise) upon receipt of payment. Confirmed orders are reserved for 30 days. If payment is not received within that period, we are in liberty to sell those items to other customers. If you pay by cheque we have to add € 10,- bank charges. Return policy: Books may be returned within 7 days, provided we are notified in advance and that the books are well packed and still in good condition. Full refund.

MG20306 **SWAMMERDAM, J., 1758.** €500,00

Histoire Naturelle des Insectes traduite du Biblia Naturae de Jean Swammerdam; xl, 673 p., 1 vignette, 35 (of 36) folded engraved pls, 1 folded table, small 4to, contemporary full marbled calf, spine gilt. Extremities somewhat worn, joint weak. Waterstain in the upper margin of the first few pages (not affecting the text). Plate 22 (depicting caterpillar anatomy) is missing!

Published as volume V in the series: Collection Académique, composée des mémoires, actes ou journaux des plus célèbres Académies & Sociétés Littéraires Étrangères.... The present volume contains the first French translation of Swammerdam's famous "Biblia Naturae". The Biblia Naturae is one of the finest collections of microscopical observations ever produced by one worker. The book is consulted by naturalists to this day. Some of the figures have never been excelled. Although most of the objects studied were insects (depicted on 25 plates), Molluscs were also well represented (depicted on 8 plates), and especially the anatomical research of *Helix pomatia* and *Sepia officinalis* are remarkable. A further 3 plates depict the anatomy and stages of the frog.
