Dear friends and customers,

I am pleased to present my new catalogue. Most of my book stock was gathered in the last 20 years and contains many rare and seldom offered items. I hope you will find something of interest in this catalogue, otherwise I am in the position to search any book you find difficult to obtain. Please send me your want list. I am always interested in buying books, journals or even whole libraries on all fields of science (zoology, botany, geology, medicine, archaeology, physics etc.). Please offer me your duplicates.

Terms of sale and delivery:

We accept orders by mail, telephone or e-mail. All items are offered subject to prior sale. Please do not forget to mention the unique item number when ordering books. Prices are in Euro. Postage, handling and bank costs are charged extra. Books are sent by registered surface mail (unless we are instructed otherwise) upon receipt of payment. Confirmed orders are reserved for 30 days. If payment is not received within that period, we are in liberty to sell those items to other customers. Return policy: Books may be returned within 14 days, provided we are notified in advance and that the books are well packed and still in good condition.

TA28936 **ABBADIE, A. D., 1873.** € 250,00

Géodésie d'Éthiopie ou triangulation d'une partie de la Haute Éthiopie. Exécutée selon des méthodes nouvelles; xxxii, 502, [2] p., 10 pls, 11 folded maps, large 4to, paperbound (original printed covers). Scattered foxing. A few small light stains on front cover, lower corner of back cover missing. A few short repaired tears. Unopened copy. Rare

Antoine Thomson d'Abbadie d'Arrast (1810- 1897) was an Irish born French scientist and voyager. He explores Ethiopia from 1838 to 1849 with his brother Arnauld Michel. After these adventurous 11 years of travel he takes back precise maps of this almost unknown (at the time) area. But he also made many meteorological, linguistic and ethnological, geological, geographical, archeological and natural history studies during his stay.
